

## Queries to the Author

Chapter Number: **Appendix 6**

Chapter Title: Detailed Description of the Proposed Overall Risk Assessment Scheme

Query	Description	Author's Response
1.	<p><b>Section:</b> Risk mitigation measures specific to <i>Apis mellifera</i> possible?</p> <p><b>Author:</b> The point “Risk mitigation measures specific to <i>Apis mellifera</i> possible?” has been changed to “Are risk mitigation measures specific to <i>Apis mellifera</i> possible?” Please check if this is ok.</p>	Yes, the suggested change is ok
2.	<p><b>Section:</b> Risk mitigation measures specific to non-<i>Apis</i> bee species possible?</p> <p><b>Author:</b> The point “Risk mitigation measures specific to non-<i>Apis</i> bee species possible?” has been changed to “Are risk mitigation measures specific to non-<i>Apis</i> bee species possible?” Please check if this is ok.</p>	Yes, suggested change is ok
3.	<p><b>Section:</b> Text</p> <p><b>Author:</b> Citations “EC, 2009, and EC, 2010” are not included in the reference list. Please provide details to include them in the reference list.</p>	These two reference are entered in the References to Chap 4, p. 38
4.	<p><b>Section:</b> Text</p> <p><b>Author:</b> The sentence “Where the results [...] honey bees (→ 2)” has been changed to read “If the results [...] honey bees (→ 2)” and similar sentences. Please check.</p>	As drafted, this chapter contains both constructions ... If Wiley wishes to maintain one construction, then that is ok.
